## EDUCATION

---

### Georgia Institute of Technology

Atlanta, GA

*Bachelor of Science in Computer Science - GPA 3.85/4.0*

*Graduating May 2027*

- Specializing in *Artificial Intelligence & Information Internetworks*
- Coursework: Computer Organization, Data Structures & Algorithms, Object-Oriented Programming, Linear Algebra

## EXPERIENCE

---

### Department of Defense (DoD)

May 2024 - Present

*Artificial Intelligence Research Intern*

*Washington, DC*

- Work alongside senior researchers on a project investigating how knowledge graphs (KGs) can be extracted from unstructured text
- Collaborate with researchers on the development of a KG-RAG system to enable Knowledge Graph Question Answering (KGQA)
- Develop methodologies for Named Entity Recognition (NER) and Relationship Extraction (RE) to populate the KGs
- Contribute to advancements in novel algorithms for identifying contradictions within KGs
- Write Python scripts using pandas & numpy for efficient processing of data from PDF to KG format

*Software Developer Intern*

Sep. 2022 - Aug. 2023

- Member of the government development team in the Data Targeting Solutions division. This team is essential for the creation of enterprise applications in support of targeting using Cloud Native techniques
- Utilized Java to develop backend database management features for internal web application, and successfully integrated those functionalities into the frontend interface
- Participated in scrum Agile development methodology, including all ceremonies
- As part of a DevOps team, supported project from requirements gathering, development, unit testing, integration testing to deployment and maintenance
- Created a developer-sided API to allow for more efficient creation of test agreements/datafeeds

### Verizon

Jul. 2022 - Aug. 2022

*System Developer Intern*

*Remote*

- Implemented GitLab and Jenkins for streamlined continuous integration and continuous deployment (CI/CD) processes, facilitating efficient code management
- Acquired expertise in essential systems, encompassing DevOps practices, AWS, microservices architecture, and cloud computing solutions

## AWARDS

---

**Stokes Educational Scholarship:** Selected to receive up to \$30,000 in tuition scholarship, a year-round salary, and summer internships

**Monetary Award:** Granted by the Department of Defense for achieving high quality results as a Software Developer Intern

**Georgia Tech Provost Scholarship:** One of 60 students awarded \$85,000 over four years

## TECHNICAL SKILLS

---

**Languages:** Java, Python, C#, JavaScript

**Frameworks:** Vue, React, JUnit

**Developer Tools:** Linux, Git, Docker, Amazon Web Services, Google Cloud Platform, VS Code, IntelliJ, Jenkins, JIRA, Unity
